I had frequent hemorrhages and coughed night and day. All my doctors said I must soon die. Then I began to use Dr. King's New Discovery for Consumption, which completely cured me. I would not be without it even if it cost \$5 a bottle. Hundreds have used it on my recommendation and all say it never fails to cure Throat, Chest and Lung troubles." Regular size 50c and \$1. PUERTO RICANS ARE ALIENS.

It was the opinion of the country that Puerto Rico would not be given an alien relation to the United States. The people believed there would at least be given to the Puerto Ricans the character of citizens when denied that relation by a Republican Congress, but the trusts had too much weight to be turned away. Their demands were imperative, because in their hands are the sinews of war, and President McKinley reversed his position taken in his message and requested his party to make a tariff upon Puerto Rican products to protect the sugar and tobacco trusts as demanded by them.

The result has been a reversal of the action of Republicans in the House who were committed to free trade between the mainland and the island, and a tariff of fifteen per cent, as made by the Dingley tariff, has been applied to Puerto Rican products.

This mistake made was so apparent that a bill was immediately introduced providing for a return of over two millions of dollars that had been gathered from the people of the island since it has become United States territory. The object of the legislation is two-fold; one of which objects is to protect the trusts and the other is to give to our relation with the people of the island a seeming justice.

The tariff tax is upon the products of the island, which is paid by the Puerto Ricans before the products are placed upon the markets in the United States, which tax and payment protects the profits of the trusts on their products in tobacco and sugar, and the people continue to pay high trust prices for their products, including the Puerto Rican product. When the people in the United States have paid the trust prices on trust products, including the products of the island, it is provided that the tariff paid by the Puerto Ricans on their goods when they are brought to the United States, shall be returned to the island in the form of an appropriation by Congress.

The people of the United States in the end pay the tariff to the trusts, as the money taken from the people of the island is returned to them by appropriation made by Congress. The trusts must be protected, and in this way they receive protection against the people, which is a new way of whipping Old Nick around a stump to effect the purpose of the trusts at the expense of the laboring millions.

The proceeding is another fraud upon the people for the protection of trusts, and President McKinley is father to the fraud, as the suggestion came from him that gave to the country the juggling legislation which should receive the condemnation of every honest man in the land.

The mistake, as it is termed by McKinley's friends, which is a mild name for the fraud, is denounced by the Chicago Herald as possessing the possibilities of serious disaster to the party in this year's elections, as it puts a whip in the hands of every Democrat speaker with which to scourge the Republicans. The only consolation there is remaining for that paper, which has been the staunch friend of the administration, is the fact that the weight of Bryan and Democratic fertility will overcome the blunder, which is the equivalent of saying the people do not possess the intelligence or the moral courage to turn down imperialism by placing the direction of government in the hands of a patriot who will administer the executive department of the government in a manner that will be in line with the constitution and declaration.

The chief trouble with McKinley is his size and the trust influences which surround him. The well meaning of the man has no backing in moral stamina, which is a defect without remedy in these times, when questions new in themselves to our system are up for settlement. The rottenness of his party in its many schemes to rob the people are stumbling blocks in the way of his integrity, which he has not the ability to remove or pass over by crushing them. The man, wherever he turns, is in doubt, and he is not possessed of the ability to remove his doubts by removing the causes that produce them.

Should he remove the causes, and thereby remove his doubts, his party would be defeated, as the trusts would not provide the money to buy the election, and the adverse principle in his party would then be subject to a drizzling storm of trust indignation that would melt the sickening properties that bind the incongruous mass called Republican party.

# BATTLE WITH THE FILIPINOS

## The End of the War Still Seems to Be Some Distance in the Future.

Special to the JOURNAL.

MANILA, March 5.—General Bates with a force of 2300 of the Fortieth and Forty-fifth regiments volunteers has occupied Nueva Caceres, rebel stronghold in province North Camarines. In battle Lieut. John B. Gallagher 40th Regt. was killed and 8 were wounded. Filipinos lost 150 killed and wounded, 64 dead being left on field. Insurgents are active in many directions and Americans are not nearly so sanguine that war is almost over. Climatic conditions are playing havoc with troops and thousands are incapacitated for active duty.

## THE WAR BUDGET HAS BEEN ADOPTED

### Three Hundred Million Dollars Voted for Great Britain's Offense and Defense.

Special to the JOURNAL.

LONDON, Mch 6.—The House tonight adopted War Budget calling for expenditures of three hundred million dollars. Incomes are to be taxed one shilling on every pound. Besides it becomes necessary for John Bull to raise one hundred and seventy five millions dollars by bonds. Remarks of Beach, Chancellor of Exchequer, in presenting Budget to Commons, indicate England must expect long struggle in South Africa and possibly complications much nearer home.

## RELIEF WAS BOUGHT AT A DEAR PRICE

Special to the JOURNAL.

LONDON, Mch 6th.—The next big move of British Troops in South Africa will be relief of Mafeking. Nothing further was received by War Office today. Winston Churchill wires Morning Post that Buller lost 5000 officers and men out of force 25000 in relief of Ladysmith.

## MARRIAGE ANNULLED.

Special to the JOURNAL.

DENVER, Mch. 6.—The wife of U. S. Senator Wolcott secured absolute divorce on a charge of desertion this afternoon with \$7,500 yearly alimony.

WAS HOW SARCASTIC?

Senator Hoar made an argument upon constitutional grounds favoring the admission of Quay to a seat in the United States Senate because of his appointment to the position of Senator by the governor of Pennsylvania. Taking a position that the intentment of the constitution is that the Senate should always have a full representation from the States in some form and any failure of a legislature to elect a Senator could not deprive the Senate of a full representation of all the States.

To support his position he claimed that one vote might cause a change of policy that would be in opposition to the policy and fundamental principles of the government. Thereupon he gave as an instance of the correctness of his position that the Senate had imperialized the country by one vote in the present Congress, which is slightly sarcastic when applied to support the application of Quay, who would undoubtedly have made the majority two votes had he been setting as a member of that body.

It has been said: "Evil is the day when your best friends are against you." Will the saying apply to the Republican party and Senator Hoar, who has been a constant Republican at all times but who in more particulars than one has become an opponent of his party and its policy?

The Senator evidently regards his country more than party when questions demand disposition that involve the integrity of the system made by the fathers of the constitution, and the government in all of its fullness for the protection of the liberties of the people who live under the folds of the flag.

### Pugilistic Science.

Theodore Van Bu-kirk, one of the best heavyweight pugilists in the business, is in Reno and is trying to get up a class in boxing among the members of the Reno Wheelmen.

There is a lot of good material in Reno and Mr. Van Biskirk should have no trouble in getting a good class. It does not necessarily follow that a man must become a pugilist because he receives instructions.

Every young man should have an idea of the art as it furnishes first-class means of exercise in friendly bouts with evenly matched friends, and it also frequently happens that a man, though he uses his best efforts to avoid trouble, has it thrust upon him, and in that case the knowledge he possesses is apt to save him considerable bodily pain as well as mortification in not being able to present a good appearance in public.

### Field Days.

The sophomores and freshmen will have a field day March 17th. A week following will take place the inter-class field day. To the latter an admission of ten cents will be charged, the receipts to be devoted to uniforming the track team. Practice is lagging at present on account of bad weather.

## Looking Over the New Route.

Yesterday it developed that the W.  
U. Telegraph Company have had a  
corps of engineers over the C. & O.  
R. R. in inspecting the route for the  
purpose of measurements, etc., in erecting  
extra wires over the S. P. company's  
new purchase. As near as can be as-  
certained the route will come via Reno  
and not across the country. This evi-  
dently means that the V. & T. will be  
taken in by the new management.—  
Appeal.

## For Sidewalk Building.

Congressman Newlands has pre-  
sented the street committee of the  
largest improvement club with a  
check for \$250, with which to construct  
cross walks on Virginia street. The  
project, if judiciously expended, will  
construct walks that are not only use-  
ful but ornamental.

## Building Contractor's.

Even if Reno is not made the ter-  
minus of the Southern California line,  
the town will not be drowny this sum-  
mer. Contractors state that there have  
a ready made a number of buildings  
arranged for. Work will begin in  
good earnest as soon as the weather  
settles.CITIZENS'  
MEETINGTo Take Action on  
Public Building  
Matter.By displaying a lack of interest,  
Reno may fail to obtain the public  
building to which it is so certainly  
entitled. Senator Stewart seems to  
have at last awakened to the fact that  
here is a State of Nevada and that it  
has a metropolis named Reno.He has introduced a bill carrying an  
appropriation of \$50,000 for erecting a  
public building in this city. The  
measure may fail to carry unless the  
people of Reno show the need for it  
and express their interest in the  
measure.The JOURNAL takes the initiative in  
the matter and suggests that a meeting  
of citizens be held in the district court  
room Thursday evening of this week.  
There should be a large attendance  
and a petition prepared, which should  
be extensively circulated and signed.Such action would have great weight  
in securing the appropriation. If any-  
body has objection to this program let  
him take the floor at once or forever  
after hold his peace.OF LOCAL

them go.

## May Defer Action.

The board of county commissioners  
were in session yesterday. Little was  
done except to pass bills. Commis-  
sioner Hymers wired to Mr. Coffey of  
the Gamewell Co. that the board  
would defer action of the matter of ac-  
quiring a fire alarm system for Reno  
until the next meeting on account of  
the injury to Commissioner Sobelline.

O'CONNOR BLOCK OPPOSITE POSTOFFICE RENO, NEVADA

NEWLANDS ON THE  
PORTO RICAN BILLIn an exhaustive speech on the Porto  
Rico tariff bill, Mr. Newlands consid-  
ered the relations of all of our new pos-  
sessions to the United States and par-  
ticularly the relation of the Philip-  
pines. We copy from the Washington  
Times the following extracts from his  
speech.

## The Philippines.

The Porto Rico question, Mr. New-  
lands said, was thus linked with the  
Philippine question; that the latter  
presented the only difficulty in the way  
of the solution of the relations of the  
newly acquired islands, and that it was  
necessary therefore to ascertain what  
duty, interest and constitutional obli-  
gation required with reference to these  
islands. The fact was that the United  
States had destroyed the Spanish gov-  
ernment and had also destroyed the  
Philippine government. The only gov-  
ernment which existed there today was  
the military government of the United  
States. It was as clearly the duty of  
the United States to pacify these is-  
lands as it was to pacify Cuba. In this  
pacification, the organization of a  
stable government was necessarily in-  
volved. A slow and tedious process  
must be entered upon of organizing  
municipal, provincial, and insular gov-  
ernment, and later on, possibly, a con-  
federated government or governments  
including either all the islands or  
groups of islands related to each other  
by race or interest. This could only  
be accomplished by the recognition of  
the sovereignty of the United States  
for that purpose. Back of all govern-  
ment lay force and the only govern-  
ment that existed in these islands to-  
day was the government of the United  
States, and its power must, as a matter  
of necessity be recognized and obeyed.  
Thus far therefore both imperialists and  
anti-imperialists agreed, that the Philip-  
pine islands must be pacified; that  
force was essential for that purpose;  
that the military power of this country  
must be asserted there in the interest  
of order and good government; that the  
people must be for a time in the con-  
dition of tutelage, their duty being to  
obey and that of the United States to  
control, but with the corresponding  
obligation to gradually and progress-  
ively instruct them in the science of  
self-government.Mr. Newlands said that the only dif-  
ference between the opposing parties  
was that the imperialists wished to  
hold the Philippines forever as sub-  
ject territory, not controlled by the  
Constitution, but under the absolute  
power of Congress, whilst the anti-  
imperialists insisted that an immediate  
declaration should be made asserting  
the Philippines of ultimate independence  
whenever, with the aid of the United  
States, a government was established  
in the Philippines capable of main-  
taining order, and of sustaining interna-  
tional obligations, the United States to  
be the judge as to when such capacity  
of independent self-government was  
complete.Meanwhile, the friendship of the  
people being assured, commercial in-  
terests of the United States could be  
rapidly developed there and a com-  
mercial hold on the islands would be se-  
cured to an extent impossible now so  
long as the Filipinos maintained their  
present hostile attitude. Naval sta-  
tions and coaling stations could be se-  
cured during the process of the estab-  
lishment of the new scheme of govern-  
ment, a process necessarily of long  
duration. Currents of trade with this  
country would be established which  
could not be deflected. This process  
meant the expansion of trade without  
the expansion of territory; involved the  
"abandonment of the perilous  
undertaking of obnoxious gov-  
ernment, abandoning our  
traditions and expanding our territory  
without applying our Constitution,  
law, and institutions to it."The Philippine Islands, he contend-  
ed, could never occupy to the United  
States the same relation as the ter-  
ritory gained from France, Spain, Mex-  
ico and Russia. From this territory  
the majority of the States of the Union  
had been created, and the small bal-  
ance remaining was certain of admis-  
sion into the Union as States. No such  
contingency as the admission of the  
Philippines into the Union as States is  
possible, he added.

## A Constitutional Question.

Mr. Newlands insisted that unless  
Congress declared its purpose of hold-

If you want saddlery that is right come to  
GEO. W. AYERSFor a number of years there have been  
several harness makers claiming to be saddlers  
in Washoe county. There has not been a  
practical saddler at the head of any of them.  
They have carried a stock of fair appearance  
high price and cheap quality. When you  
gave them a difficult order they were forced to  
send it away to have filled. In the future I  
invite you to place a trial order with me. I  
do not believe in self praise, but will let my  
reputation as a saddler depend on your judg-  
ment after inspecting my work. As to experi-  
ence I have been employed in all the leading  
saddlery of the United States. I WILL  
GUARANTEE ALL WORK ENTRUSTED  
TO ME AT PRICES TEN PER CENT  
LOWER THAN THOSE WHO CLAIM TO BE COM-

**A SURE CURE FOR COUGHS**  
Twenty-five Years' Constant Use  
without a Failure.

The first indication of croup or whooping  
cough, and in a child subject to that  
disease it may be taken as a sure sign  
of the approach of an attack. Follow-  
ing this hoarseness is a peculiar rough  
cough. If Chamberlain's Cough  
Remedy is given as soon as the child  
becomes hoarse, or even after a  
croupy cough appears, it will prevent  
attack. It is used in many thou-  
sands of homes in this broad land and never  
disappoints the anxious mother. We  
have yet to learn of a single instance  
in which it has not proved effectual.  
No other preparation can show such  
a record—twenty-five years' constant  
use without a failure. For sale by  
Wm. Puniger, Druggist.
